Hello Guitarist!

First off, thank you for your support. I work hard to bring any sort of value to my teaching. When I create something new, I really ask myself what I could have found useful at the beginning of my own journey and how can I CREATE it with my personal touch while maintaining a fun touch of visual / learning nature.

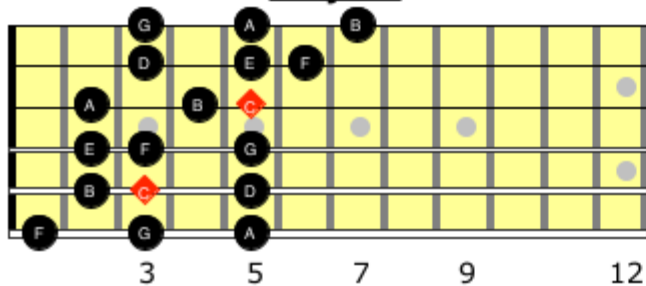

With this PDF, you can see all the Natural Positions within all 12 Keys. We've also included full fretboard positions at the bottom of each page.

I had a lot of fun working on this and it is quite tedious yet therapeutic in a way. I hope it helps you in your ever-lasting guitar journey! If you enjoy this, check out some of my music and lessons here: <https://linktr.ee/jorgesalasmusic>
